LOCKUPS

THE PULSE OF LIVE MU

THE PULSE OF LIVE MU

Horizontal lockup for headers, newsletter masthead, and channel banners. On dark, "Málaga" goes white and the badge flips to a white tile. The square badge alone is the profile picture and the video watermark.

THE BADGE ON ITS OWN

COLOURS

Sea blue

#0B5E8A · RGB 11 94 138

Sunset coral

#E8662A · RGB 232 102 42

Deep navy

#143A4E · RGB 20 58 78

Sand amber

#EF9F27 · RGB 239 159 39

Sea blue badge + coral play triangle are the core. Navy is for text and the one-colour logo; amber is an accent for highlights and "free" tags — use sparingly.

TYPOGRAPHY

Wordmark **Anton** (Google Fonts, free for commercial use) · all caps · letter-spacing ~1px. fonts.google.com/specimen/Anton

Headlines Anton, or **Archivo** Bold for longer headers

Body /
captions **Inter** (or Archivo) Regular & Medium

Accent on á Always keep the accent: **Málaga**, never "Malaga"

CLEAR SPACE & USAGE

Do

•Keep clear space around the lockup equal to the height of the badge.

•Use the badge alone wherever space is tight (avatars, watermarks,

favicons).

- Use the mono version for one-colour print or on busy photos.

Don't

- Recolour the play triangle to anything but coral (or coral-on-white).

- Stretch, skew, add shadows, outlines, or gradients.

- Set the wordmark in a different font or drop the á accent.

To make PNG/print files: install Anton (free, one click on Google Fonts), open an SVG in Canva, Figma, or

PowerPoint, then export PNG at the size you need. To "outline" the wordmark so it needs no font at all,

choose Object → convert text to path/curves before exporting. The badge already needs no font.
